Assisted Parking

Description
Assisted Parking allows vehicles to park behind other cars after all spaces in a parking lot have been filled, increasing the amount of cars able to park in the parking lot.

Location and Service Hours
Assisted Parking is available Monday through Thursday in Lot A, Lot A South, Lot E, Lot S, and Titan Hall South. Attendants will begin parking vehicles at 8:30 a.m.

Parking Attendants
An attendant will be available until 10 p.m. to return car keys.

After 10 p.m., car keys can be retrieved with identification from the University Police Department (657) 278-2515, located on the corner of State College Boulevard and Gym Drive.

Parking & Retrieving Vehicles
An attendant will be onsite to direct parking in a designated parking aisle. Please provide the attendant with the valet car key to receive a corresponding claim check. Present the claim check to the Parking Attendant to retrieve the vehicle.

Before leaving, roll up all car windows, lock the doors, and note where your car is parked. Never leave valuables in the car.

All blocked vehicles can be moved by the Parking Attendant onsite. Please provide the ticket number under the windshield to the attendant so the vehicle may be moved.

Additional Information
Assisted Parking Attendants are required to lock all car door and windows, engage the parking brake, write the correct location of the parking vehicle on the claim check, and when applicable, reactive car alarms and reattach steering wheel locks.

Claims for loss or damage must be made with the Assisted Parking Supervisor on duty. Any claims or inquiries should be addressed to Mike Rios, Empire Transportation (800) 540-1515. Claims must be made before leaving campus.

Questions? Contact Parking & Transportation Services at parking@fullerton.edu or (657) 278-3082.
